### **Get a Bird's Eye View of Empire Farm Days: UAS Drones in the Air at 2018 Show**

Seneca Falls, NY. Empire Farm Days visitors will see a bird's eye view of Empire Farm Days and demonstrations during the August 7, 8 and 9, 2018 show. CNY Drone Works of Fulton, NY, will be operating a UAS, an unmanned aerial system, over the show at Rodman Lott and Son Farms in Seneca Falls, NY.

Instructional demonstrations will be ongoing throughout each day of the show. Company representatives will be talking about the technology, super high resolution, thermal camera imaging, land mapping, and other features available through CNY Drone Works, including training and education.

"Drones are changing the way the agricultural industry manages its crops. Aerial mapping with normalized difference vegetation index imagery can be a great new tool for identifying and responding to problem areas and potential land use opportunities," says CNY Drone Works co-owner John McGraw.

Empire Farm Days is the largest outdoor agricultural trade show in the Northeastern U.S. The event includes agricultural and rural living equipment, working equipment and crops demonstrations, test driving, products, live horse and cattle demonstrations, safety information, and much more with more than 600 exhibitors and vendors. For details on the 2018 Empire Farm Days event, visit the website at [www.empirefarmdays.com](http://www.empirefarmdays.com). Also see Facebook and Instagram.
